SUMMARY

QA Engineer with 1+ year of professional experience in Manual Testing and Quality Assurance, along with internship experience in Software Testing and Automation Testing using Selenium WebDriver with Java. Skilled in Functional Testing, Regression Testing, Smoke Testing, API Testing, Test Case Design, Defect Tracking, and Requirement Analysis. Experienced in testing Healthcare, Academic Management, Inventory Management, Order Processing, and HRMS applications. Strong understanding of SDLC, STLC, Agile methodologies, and software quality assurance best practices. Passionate about delivering reliable, high-quality software products through effective testing strategies and continuous improvement.

EDUCATION

Government Women's Polytechnic College, Kaimanam, Thiruvananthapuram

Diploma in Computer Engineering

2019 – 2022

EXPERIENCE

QA Engineer

July 2025 – Present

Logiprompt Techno Solutions India Pvt. Ltd.

- Analyzed business requirements and functional specifications to design comprehensive test scenarios and test cases.
- Performed Functional, Regression, Smoke, and System Testing across multiple web applications.
- Tested Academic Management Systems, Healthcare Applications, Inventory Management Systems, Order Processing Systems, and HRMS platforms.
- Validated critical workflows involving student management, patient records, inventory tracking, employee management, and order lifecycle processing.
- Identified, documented, and tracked defects using Jira.
- Collaborated with developers and stakeholders to ensure timely issue resolution and successful releases.
- Participated in requirement reviews and quality assurance activities throughout the software development lifecycle.

Junior QA Engineer Intern

October 2023 – January 2024

Camerinfo Pvt. Ltd.

- Designed and executed manual test cases to validate application functionality.
- Conducted Functional, Regression, and Smoke Testing under senior QA guidance.
- Logged and tracked defects and verified bug fixes.
- Collaborated with developers to reproduce and resolve issues.
- Performed UI and usability testing to ensure a consistent user experience.
- Contributed to quality assurance documentation and testing reports.

PROJECTS

Zaya Wellness – Healthcare Application

- Tested appointment booking, user registration, consultation, and service management workflows.
- Validated end-to-end booking, payment, and confirmation processes.
- Conducted Functional, Regression, and Smoke Testing.
- Verified data consistency and user information handling across modules.

Edusoft – Academic Management System

- Designed and executed test cases for student registration, authentication, attendance, and academic workflows.
- Performed Regression Testing to ensure system stability after feature enhancements.
- Validated data accuracy across student records, attendance, and results modules.

ATOMED Chemist (PRS Hospital) – Inventory & Order Management System

- Tested inventory management, stock updates, product availability, and order processing workflows.
- Validated complete order lifecycle from order placement through delivery confirmation.
- Verified inventory synchronization and billing accuracy.

KORPS Sync HRMS – HRMS & Heavy Vehicle Service Management System

- Tested employee management, attendance, payroll, and service management modules.
- Conducted End-to-End, Functional, and Regression Testing.
- Verified employee data integrity, service logs, and maintenance workflows.

TECHNICAL SKILLS

Manual Testing
Functional Testing
Regression Testing
Smoke Testing
System Testing
API Testing
Cross-Browser Testing
End-to-End Testing
Test Case Design & Execution
Defect Lifecycle Management
Selenium WebDriver (Java)
TestNG
Playwright (Python)
Jira
Postman
Git
GitHub
Java
SQL
Python (Automation)
SDLC
STLC
Agile Scrum
